

OUR HERITAGE
dates back to 1976

AIR CONDITIONING & CLIMATE SOLUTIONS

Hills Air Climate Solutions is proud to deliver beautifully integrated air conditioning and ventilation to Sydney's finest homes. Working with homeowners and property professionals with thousands of home owners in the Northern Beaches, North Shore and Eastern suburbs of Sydney.

Our agile design process allows us to collaborate with all members of the project design and delivery team to ensure the end result exceeds our clients expectations.

ABOUT HILLS CLIMATE SOLUTIONS

Hills Air Climate Solutions is a third-generation business based in Sydney which originally started in the Hills area of Sydney hence our name.

Our heritage dates back to 1976 and now has the third generation of the Ovenden family working in the business. Endorsed by many of Sydney's leading architects and builders, we prize discretion, professionalism, and innovation and meticulous attention to detail and care of our clients homes.

We offer a fully bespoke service enabling luxury properties to become comfortable, quiet retreats where people can relax, dine, sleep, study and exercise in total comfort whether the temperature outside is over 40 degrees Celsius or under 5 degrees Celsius there is no reason you cant be perfectly comfortable in your home.

We only deal with the best brands with the majority of our high end homes choosing the world renown brand Daikin to ensure a long lasting investment and minimal aftercare for the climate system in your home.

THE HILLS EXPERIENCE

Working with Hills Air Climate Solutions ensures clarity at every stage of the process. Our professional and supportive team ensure that the end result is an intelligently integrated solution, tailored to the requirements of the individual property and client.

Hills Air Climate Solutions is a third-generation family business which originally started in Castle Hill in Sydney's north west under the name Hills Air Conditioning Services.

While Peter has stepped back from the every day running of the business his sons, grandsons and granddaughters are heavily involved in everyday quoting, client meetings, project management and delivery to ensure that every client is extremely satisfied with the climate control system in their home.

MEET THE FOUNDERS

With industry backgrounds including engineering, Refrigeration and Air Conditioning, design, and project management, the Hills team approaches every project with creative thinking and a shared respect for the architectural vision.

We draw on years of experience working in luxury properties to deliver systems that stand up to scrutiny in both function and finish, with an appreciation for context and an eye for the details.

OUR PROCESS

Our process provides complete upfront clarity on cost, aesthetic options, and sound levels for each room, enabling them to choose their own specification and budget prior to any commitment.

Regardless of the project typology, whether retrofit or refurb, our robust and agile design approach ensures a successful result on every project where we are appointed.

INITIAL PHONE CALL OR VIRTUAL MEETING

Video or phone call to discuss initial requirements, showcase options and provide indicative project costs.

ONSITE MEETING

On-site visit to assess project feasibility and explore options discussed at the virtual meeting.

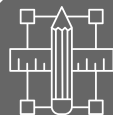

SCOPE OF WORKS AND QUOTATION

Written report to confirm proposed scope of works and quotation emailed to client.

DESIGN DEVELOPMENT

Comprehensive design development including specification, drawings, calculations, coordination with designer and project planner.

PROJECT DELIVERY

Full installation carried out, either client-direct or as a specialist subcontractor through the appointed builder.

AFTERCARE

PREVENTATIVE MAINTENANCE

Regular service visits to clients' properties ensure air conditioning and ventilation equipment is operating efficiently and effectively with lower running costs and carbon footprint, optimising equipment lifespan.

Regular maintenance removes dust, dirt and mould, creating a healthier living environment and ensures your home climate system won't let you down.

Hills Air Climate Solutions has a dedicated Aftercare team that provides ongoing maintenance services at the client's request. We place the utmost importance on protecting furnishings and surfaces, ensuring all planned maintenance is carried out with minimal disruption. We understand that this is your home, and our meticulous attention to detail and care for our clients' spaces is second to none.

CLIENT TESTIMONIALS

An excellent company to work with - the team couldn't have been more helpful and easy to work with. Technicians and installers polite and worked efficiently and cleaned up well after work completed. Outstanding service and quality airconditioning system supplied, highly recommend!

I got 2 quotes to do the air conditioning in my home and Hills was the higher of the 2 but their professionalism and care in the detail gave me the desire to pay a bit more as this is my home where I want everything well done and didn't want to risk using a cheaper company. I can tell you once the job was done I said to my wife, WOW we certainly made the right choice.

Great Work guys on fixing the A/C temperature issues in my home. I have struggled for years with getting the right balance to make my home feel comfortable and you guys nailed it! Also the cleaning of the grilles WOW they look like new certainly will have you back to service it again.

I have used Hills in 2 of my homes over the past 20 years and they have been excellent. I am pleased to be able to give them a 5 star review and would highly recommend them to anyone who is considering air conditioning in their home. Their attention to detail and their care was very good.

My parents used Hills Air to do their home in Cremorne about 20 years ago when I was still at home so when purchased my home I called Hills and the same guy that did my parents home was still working there. I got them to do my home ducted system and was extremely pleased with the job. Great company and would definitely recommend them to anyone who wants a quality job.
